MARKETING & DESIGN STUDIO, LLC

Featuring "The ALL Senses PRESENTation Box®"
The World's Most SENSE-ational Marketing Tool!

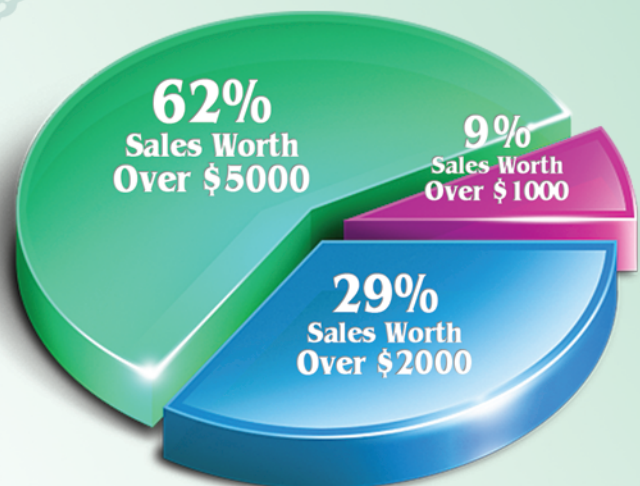

At Out of the Box we are committed to providing our clients with products & services that are strategically designed to transform the average sales proposal or marketing media into extremely powerful sales tools. The Out of the Box presentation will stimulate and engage prospects in ways that no other form of media has ever been known to accomplish. Traditional marketing methods usually stimulate only between one to three of the common senses, such as sight or sound. With this tool, however, you now have the ability to engage ALL 5 of these common senses. Even more when senses such as humor, pride or self worth, etc. are engaged. Phenomenal results soon follow!

An Out of the Box experience provides a direct conduit through which you can connect with your clients on an emotional level. It promotes positive long-term business relationships that will quickly accelerate your business to a whole new plateau. You are guaranteed to stand out above your competition and receive much greater attention on YOUR proposal.

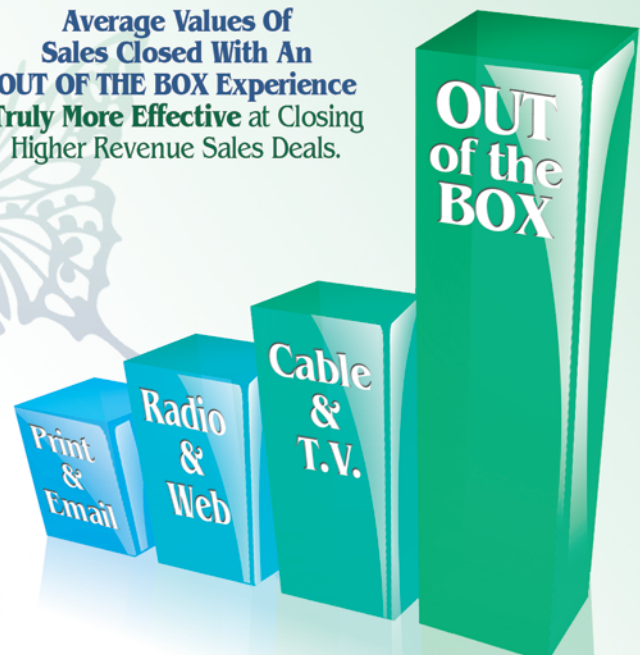

An Out of the Box presentation will ultimately help to achieve greater & more valuable sales results with far less effort. Your sales cycles will be shortened and your cost of sales will be lowered.

From the classy visual impact the moment your presentation box is received, through to the powerful surprises revealed when they open the box and are engaged with aroma, sound, high quality treats and delightful personalized gifts, your client is positively immersed in your marketing message. An Out of the Box experience will quickly become the one tool in YOUR BOX that truly does have the power to open doors you may have previously imagined impossible.

Call us and let us show you how to gain your next client with an Out of the Box experience they will always remember.

Marketing Resource Available Today!

HOW DOES IT WORK?

We engage **ALL 5 senses** with **12** or more items from the first moment you make your proposal with **An Out of the Box Experience**.

We start by including a custom imprinted 9 x 12 glossy pocket folder or 1/2"-3 ring binder which will hold your proposal media such as, business cards, cover letters, brochures, etc.

An Out of the Box Experience will engage ALL 5 common senses!

- **Sense of Sight** — (Motivates action) The box lid & presentation pocket folder or 3 ring binder are personalized with your logo and the individual client's name and company are imprinted on the ribbon, leather pad folio, engraved metallic pen & lenticular 3D bookmark.

- **Sense of Taste** – (Over 75% of the Fortune 100 promote with taste because of it's effectiveness in creating memorable experiences.) We include tasty sweet treats from our selection of top brand name chocolates – such as; Godiva®, Lindt Lindor® or Ghiradelli® etc. & savory treats like Blue Diamond®, Planter's®, SlimJim® etc. Multiple treats are included.

- **Sense of Smell** – (Smell is the sense that creates the most powerful impression in your brain!) Choose from almost ANY scent to can set a mood, evoke a memory or neutralize the air with a fresh clean scent. Choose from votive candles, desk or car fresheners OR ??? The box itself is directly infused with the scent.

- **Sense of Sound** – (We utilize sound to engage your recipient in a way that is both memorable and surprising.) A sound bite is inserted in the box or presentation folder or binder, so when opened, either your "walk on song", introduction of your product, or a special sound clip that resonates with your company's message immediately plays.

- **Sense of Touch** – (These include tangible items that are "felt" or engaged with their hands.) One or more tactile items are included in the box – such as a stress object, a slinky, a bendy object, flashlight etc.

GET STARTED TODAY!

We are dedicated to providing customers with the highest level of customer support and services possible. * Suggested Minimum Order.

"Based on studies that link the five senses with human memory and emotion, it can greatly enhance one's engagement with a brand (both offline and online). It also increases the likelihood of advocacy, and very possibly, stronger business results. In a rational world of business, connecting at an emotional level is the key, and often missing ingredient, to capturing hearts and building lasting connections.

Given the bombardment of 2-D advertising into every corner of our lives, it's effectiveness and return on marketing expenditure is sliding – the ability to connect in more emotive and memorable ways holds great meaning for consumers and marketers. Particularly in this economic environment, any emotional edge that you can provide is important – and lasting."
